Who we are

NUS Enterprise@Singapore Science Park is a partnership between NUS Enterprise and CapitaLand to cultivate and aggregate a vibrant tech ecosystem and community towards disruptive innovations.

What we do

We are the one-stop hub which connects corporates to the talents, research capabilities, and technologies of the National University of Singapore. At the same time, we have a role in incubating growth stage start-ups and supporting their journeys through our resources and added facilities such as a Demo Deck and dry labs, which allow for prototyping and product development.
